J. C. Settle and family returned to their St. Louis home Saturday, after a pleasant visit here of a couple of weeks.

Dr. Lutman's "devil wagon" is getting to be pretty noisy, sounds as if it had a bad case of rheumatism—guess Harry must have forgot to shut the stable door one of those cold nights.

Brass Saved Him.

Ed Williams, while wiring the front of The Royal Theatre last Thursday for additional electric lights, let the ladder get away from him, when about 15 feet up, and not having anything to stand on he concluded to come down, first starting to light on the back of his head, but remembering that was a soft spot, and that his face was brass-bound, he turned over and landed on the concrete pavement with a dull thud, knocking out two of his front teeth, and making him slightly dish-faced, but his girl says he is just as handsome as ever and not so dangerous—he can't bite now. It was a close call, but Ed was up right away and completed the job.

Mr. C. W. Kavanaugh has bought our picture show and those who visited the show last Friday evening were greatly pleased with the changes that have been made under the new management. Under the present arrangements we have about as neat, tidy and pleasant a little show room as can be found anywhere. The anti-room, or ticket office, makes a person feel he is going into a parlor. In the main room the back seats have been raised, the room enlarged and thoroughly renovated, a fine new piano installed, an orchestra added, and these things, with the high class pictures already arranged for, is going to give our people one of the highest class picture shows in Central Missouri. We congratulate the new management for giving us such splendid shows under such fine conditions and wish them all kinds of success.

Paul Spurlock, the abstracter, has moved to his new office on south side and when the days get longer and the roads good we'll visit him and write him up right.

The residence of William Fisher, Old Stover, was destroyed by fire Monday night. It was visible here, and was watched by a number of our citizens.

Attorney A. A. Knoop, of Kansas City, was visiting relatives and friends here and attending to business in the probate court the first part of the week.

Mr. Jolly, of Stover, was in the city Tuesday, and was rather jolly, reporting the arrival of twins, a boy and a girl, at his house. If this keeps up they will have a jolly crowd after a while, and not so long, either.

It seems like a sure enough revolution down in Mexico at last, but there will never be a decent show or a square deal for the Mexican people until they are safe under the folds of the stars and stripes.

Frank Gardner, of Proctor, was up to the city Monday on business, and thought he might apply for the office of J. P., but found that Squire Ernest had it nailed down hard and fast for life, so he will probably join the Progressives now and help oust the mossbacks.

Rev. S. L. Williams, State Secretary of the Mo. S. S. Ass'n., held an interesting meeting at the Christian church Sunday afternoon, and a real good time and a large attendance at the Presbyterian church at night. He promised a big Sunday School Convention for Versailles in April. Keep the good work going.
